# TONE GUANG DONG TAI YI PRECISION MACHINERY CO.,LTD

- » T-GCF High Speed Flexo Printer Slotter Rotary Die-Cutter Folder Gluer Inline with Strapping Machine and Robot Palletizer System

Excellent For Corrugated boxes, High Quality Printing, Slotting, Die-Cutting, Folding & Strapping Inline Production  
One stop intelligent packaging solution

Easy Maintaining    Accurate Folding    High Speed Running    Touch Screen Operating

## » T-One high speed single pass digital printer

Non contact printing, simple operation  
High speed operation, revolutionary corrugated box digital printing  
There is no need for plate making, and the content of the layout can be modified flexibly  
Water based inks is used, which is safe and environmentally friendly

Enterprise public number

## SHINKO Super $\alpha$

### Fixed Flexo Folder Gluer (Fixed FFG)

Represent an excellent and complete solution for carton production. Take functions of flexo printing, creasing, slotting, rotary die-cutting, folding, & gluing, count, stack

HIGH SPEED  
HIGH EFFICIENCY  
HIGH VERSATILITY

max speed 400 pcs/min  
2 minutes order shifting  
folding & non-folding modes available

LESS NOISE  
LESS MAINTAIN  
LESS RUNNING COST

servo drive, low vibration and noise  
eliminating of transmission gear  
cut power consumption by half

## Cangzhou Ruijie Carton Machinery Co.,Ltd.

**NEW**

### Automatic Flatbed Die Cutting Machine

1. Working speed : 5000p/h
2. High speed precision leading edge paper feeding, effectively preventing scratches on the surface of the paper during feeding.
3. High torque pneumatic clutch/brake. The specially designed throttling/airflow buffering circuit system ensures smooth opening and closing of the pneumatic clutch, making it smoothly delivery after cutting and stripping ;
4. The pneumatic knob loading and unloading the rear stripping plate from the side window is easy to operate.
5. Comply with CE standard safety door and operation safety protection system;
6. The exchange of three side and four side stripping methods adopts a button pneumatic control, making stripping plate replacement quickly and convenient.

## Cangzhou Worldwide Import & Export Co.,Ltd.

### Full Computeried Vaccum Transfer Flexo Printer Slotter Die Cutter

1. This machine is for high graphic printing
2. Full computeried
3. Automaticly slotting ( 8 rolls)
4. Free-pressure for cardboard
5. High speed

## Foshan Fuli Packaging Machinery Co., Ltd.

### High Speed Corrugated Cardboard Production Line 2-ply Corrugated Single-faced Production Line

1. Leading manufacturers for corrugated machine
2. 3500+ successful installation
3. Corrugator Web Size: 1800mm- 2800mm
4. Speed: 200m/min-350m/min
5. 23+Years Specialized in corrugated industry, that delights

## Guang Dong Tai Yi Precision Machinery Co.,Ltd.

### T-GCF High Speed Flexo Printer Slotter Rotary Die-Cutter Inline With Folder Gluer

1. Original SUN automation lead edge feeding system.
2. Full vacuum transfer for printer unit.
3. Fish tail tolerance will be +/-2mm variation with stable and consistent production.
4. Max folding speed reaches to 400pcs/min.
5. With counter ejector max speed to 32 bundles/min.
6. Multi servo motors used for folder gluer.

### Guangzhou Keshenglong Carton Packing Machine Co.,Ltd.

#### Shinko Super Alpha, Computerized High Speed Flexo Printing Slotting Die-cutting & Case Maker

The Automatic corrugated carton flexo printing machine Shinko Super Alpha answers the industry's desire for better feeding performance, tighter print registration, precise folding accuracy and the ability to do quick order changes for the ever-increasing small-lot business. The advantage of energy saving and technology of non-crush on sheet board feeding and remote service brings the efficiency and trouble free for users.

### Hebei Jstar Carton Machinery Co.,Ltd.

**NEW**

#### GSB Series Automatic High Speed Digital Printing Machine

1. Printing Head adopt Epson I3200-A1 from Japan, using water-based environmental protection ink, with low cost and bright colors.
2. Plateless printing technology to achieve efficient production.
3. Windows operating system to perfectly display and optimize the printed pictures required by customers.
4. Negative pressure ink supply mode is adopted, so that the ink on the nozzle surface is not easy to dry.
5. Intelligent temperature control system, no need air-conditioned room.

### Hebei Lincheng Packaging Machinery Manufacturer Co.,Ltd.

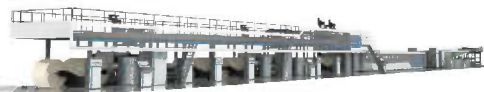

#### Corrugated Paperboard Production Line

1. 1400-2500MM Width 60-300m/min corrugated cardboard production line.
2. Positive, negative pressure Single facer with fixed, modular or cassette type structure.
3. Electricity, fuel and glue saving design for low consumption high productivity concept.
4. Refinement glue amount and temperature control for low gram and semi-chemical paper production.

#### Industrial Cardboard Production Line

1. 2-6 layer paper compound for hardboard
2. Hot or cold Adhesive
3. Flip Top Turn Over stack
4. Speed 30-120m/min

### Hebei Shengli Carton Equipment Manufacturing Co.,Ltd.

**NEW**

#### High Speed Carton Case Maker Production Line

1. Speed 300sheet /min
2. Automatic adjustment for each order
3. 1-2 people for operation
4. Vacuum transfer of printer
5. Slotter or Die-cutter optional

## Hebei Xinguang Carton Machinery Manufacture Co.,Ltd

NEW

### WJ 350-3300MM 7Ply Corrugated Cardboard Production Line

- 1.Design speed 350m/min
- 2.Machine width maximum 3300mm
- 3.Fully high speed automatic design.
- 4.Especially suitable for middle and low quality paper.
- 5.High quality and easy maintenance

## Jiangsu Xutian Environmental Protection Machinery Co.,Ltd

### Full Automatic Waste Paper Baler Machine

The professional manufacturer specially providing horizontal and vertical baling machine, cyclone, conveyor, shredder, blower for 25 years.

Widely used to bale waste cardboard/paper scraps/trims in packaging/corrugation industry, paper/printing plants etc.

## Nantong Jiabao Machinery Co.,Ltd

### Fully-automatic Baler Machine and Waste Trim Collecting System

1. Whole trim removal system makes the plant more intelligent, less labor cost and higher efficiency
2. Low failure rate and easy maintenance
3. It could be designed according to different customer request
4. Various type of baler machine is available for choosing
5. We also have solutions for carton, paper mill and sanitary care industry

## Shandong Century Machinery Co., Ltd

### Feeding Section Lead Edge Feeder /Cassette Feeder/Bottom Suction Feeder

1. Maximum speed: 5,500 sph
2. CE certified.
3. Front waste removal tool
4. Non-stop delivery system
5. Human machine interface
6. Complete stripping system
7. Siemens latest PLC technology
8. Maximum sheet size: 1670\*1260mm
9. Applicable to corrugated board 1-8.5mm
10. German and Japanese standard spare parts
11. Gear drive for stable and fast machine running

**Shandong Drick Instruments Co.,Ltd**

**Drick®**

### Lab Testing Machines

DRICK has obtained many international certifications, such as ISO9001, ISO14001 and ISO18001, and products are widely used in scientific research institutions, quality inspection institutions, colleges and universities, packaging, papermaking, chemical industry, food, pharmaceutical, textile and other industries. DRICK instruments include: analytical instruments, environmental testing, physical optics testing, mechanical testing, medical testing, teaching instruments, experimental furniture testing, experimental consumables, etc.

**Shanghai Dasong Corrugating Roll Co.,Ltd.**

**RMM**

**DASONG**

### Tungsten Corrugating Roll

- 1.Flute profile: TFP service, the 'three arc design'
- 2.Periphery heating roll: PHR, the special internal structure
- 3.Mirco flute with tungsten coating: E,F,O,N,G
- 4.Fishbone slot distribution
5. Heat treatment: Nitriding,Quenching,Cryogenic

**Shanghai Dinglong Machinery Co.,Ltd**

**DING LONG**

### VRIDA-TP 924 FFG AUTO HIGH SPEED PRINTER FOLDER GLUER INLINE

Fixed type FFG with quick order change, stable running speed at 300 pcs/min, the excellent creasing and folding control gives better converting, and with 30 bundles count ejector makes the machine can run full speed even 5 layer box 10pcs per bundle. The whole machine provides high efficiency and productivity with lower running cost.

**TianJin YongLiQi Paper Machinery Co.,Ltd**

**NEW**

**YLQ 永利奇®**

### YGF Printer with Inline FFG Machine

1. Provides a large amount of real-time data analysis.
2. Real-time monitoring of equipment production status.
3. Collection of real-time data for analysis.
4. Intelligent maintenance reminders and remote maintenance.

## WestRiver Corrugated Machinery Co., Ltd.

### High speed fully automatic corrugated cardboard and carton machine

1. Heavy duty mechanical design makes sure stable running.
2. Personalized product design to meet different customer needs.
3. High-performance PC-level full real-time industrial computer (BECKHOFF, Germany). Microsecond real-time bus feedback.

## Xieyang Machinery (Guangdong) Co., Ltd.

NEW

### High-Speed Intelligent Corrugated Cardboard Making Machine

1. High efficiency and low energy consumption
2. High precision and low noise
3. High degree of automation and easy operation.

## Guangdong Toprint Intelligent Machinery Technology Co., Ltd.

拓品®  
TOPRINT

NEW

### Vacuum Transfer High Speed Flexo Folder Gluer (Top Loading)

1. SERVO CONTROL NON-CRUSH FEEDER
2. MORE PRECISION WITH SERVO REGISTER CONTROL
3. FAST, ACCRUATE, STABLE ORDER CHANGE

**Max.Speed: 350sheets/min**

## XLS Carton Machinery

### Automatic Full Vacuum Transfer Flexo Printer Folder Gluer Inline

1. Average speed: 200-300pcs/min.
2. With drop type servo control stacking, servo control ejecting.
3. With servo type automatic correction function, eliminate scissor problem.
4. With servo type folding shaping wheel.
5. Inline can be one-key linkage adjustment with printing machine.

**Fujian Taian Lamination Film Co., Ltd.**

**NEW**

**Thermal Lamination Film**

1. BOPP Thermal Lamination Film
  2. BOPP Laser Thermal Lamination Film
  3. PET Metalized Thermal Lamination Film
  4. CPP Glitter Thermal Lamination Film
- Our products can be used in many kinds
5. Steel Lamination Film Our products are used in all types of paper media, such as books and magazines, Catalogues, calendars, albums, photos, cosmetics, etc.
  6. Colors and patterns can be customized.

**Guangzhou Internet Wood Glue Trade Co., Ltd.**

**NEW**

**Book Binding Glue, Handbag Glue, Case Carton Sealing, Bottle Labelling**

1. The product is formulated with good adhesion and thermal stability .
2. The product has strong thermal viscosity and good resistance to high and low temperature
3. Has fast setting and good for online packaging line.
4. Has good resistance to ice water and moisture.

**Gungdong New Era Composite Material Co.,Ltd.**

**Thermal Lamination Film**

1. Environmentally friendly
2. Safe operation
3. Excellent ability of absorbing powder and adhesiveness, better color saturation and brightness
4. Easy handling
5. High efficiency, reduce production cost and labor costs
6. Widely adaptable to different types of lamination machines

**Shanghai Yoco Printing Machinery Co.,Ltd.**

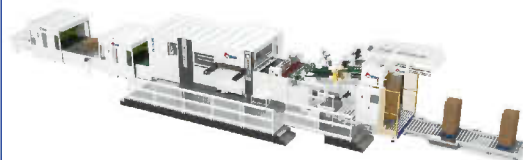

**NEW**

**Automatic Diecutter (Bottom suction feeder/lead edge feeder with Preloader and two stations Breaker with turning unit)**

**Diecutting section**

1. Pneumatic adjustment can be set- up on touch screen, to reduce the commissioning time during repetitive work
2. Touch screen shows machine working condition, dia-gnose machine fault position effectively
3. Center line positioning system and pneumatic locking-updevice on diecutting chase
4. Cutting chase turn-over device can shorten set up time

## Shouguang Sunrise Industry Co.Ltd.

NEW

## Pe Coated Cupstock Paper

1. Pe Coated Paper, Kraft Pe Coated Paper, Clay Coated Paper, Cup Fans
2. Art Paper, Offset Paper, Ivory Board, Color Paper

## UP GROUP

NEW

## Synchro-Fly Servo Motor-Driven Sheeter

1. Higher Cutting Technology System
  2. Higher Speeds, Better Cut Quality:
  3. 90-Degree Cut, Dust-Free, and Better Tolerances.
- Paper and Boards up to 1000gsm.

## Wenzhou Binbao Machinery Co.Ltd.

## Paper slitter rewinder machine, film roll slitter rewinder machine, paper roll sheeter machine, A4 copy paper production line

1. Stable running speed 500 meters/min
2. Maximum rewinder diameter 1500mm
3. International brand electric control system
4. Automatic unloading system
5. SGS CE certification

## Wenzhou Guangya Machinery Co.,Ltd.

NEW

## LK106MTF-B Automatic Foil Stamping and Die Cutting Machine with Stripping

1. This machine can do hot foil stamping, die cutting and stripping work.
2. Intelligent control system.
3. Working speed can reach 7500 sheets per hour.
4. It can do 4 sides stripping.
5. Machine can withstand greater working pressure.

Yishu Paper Group Co., Ltd.

NEW

**Authentic Maker Of Colored Specialty Paper For Luxury Packaging**

About us

1. Yishu Paper Group was founded in 2001
2. Yishu has set up 6 factories and 20 sales branches across the country and has become one of the largest art paper manufacturers in China.
3. Yishu manufactures more than 2,000 sub-categories and exports to more than 30 countries.

Zhejiang Gaobao Machinery Co., Ltd.

**HIGHTOP 高宝**

**Frame type full automatic high speed slitting rewinding machine Kfq**

1. PLC intelligent control, three servo motors for winding, high precision, automatic tension control.
2. Frequency inverter to keep running smoothly during acceleration
3. Auto count meter, auto alarm, automatic stop when reach to set meter.
4. Full automatic rewind.
5. EPC automatic control
6. Hydraulic automatic shaft-less loading frame structure

Folding Box

Zhejiang Xinwei Machinery Co.,Ltd.

NEW

**Automatic Rigid Box Making Machine**

This machine is mainly used for producing boutique boxes with high requirements, like high grade boxes for iPhone, iPad, Jewelry gift, makeup, etc.

# Turnkey Service for the Deinking Pulp Line

The deinking process increases the whiteness and cleanliness degree of recycled paper, and further improves the paper qualities through mechanical and chemical process. FJIME provides the complete DIP turkney service

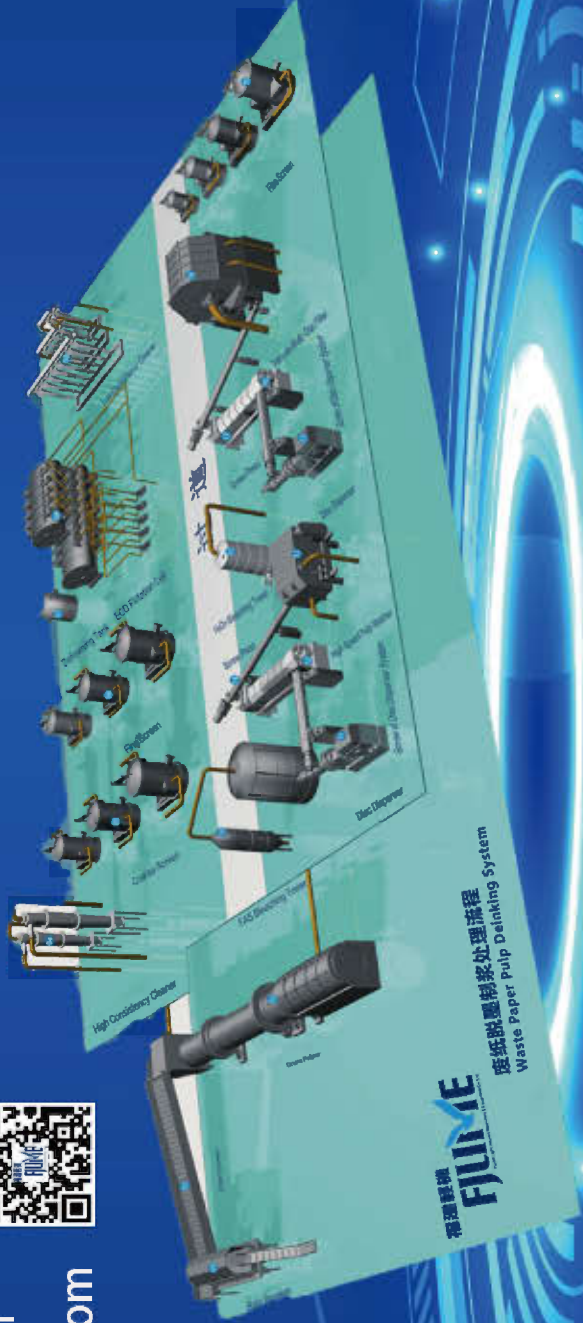

- ① Complete set of equipment
- ② Engineering
- ③ Project management
- ④ Supervision service of installation, commissioning and start up
- ⑤ Operation training at site

## COMPANY INTRODUCTION

Bluesun chemicals was established in year 1998, we have been producing the paper chemicals for more than 20 years. Based on DCS and refined raw materials, we have been exporting our products all over the world for more than 10 years, the quality is always guaranteed, which can compete with Solenis, Kemira, BASF etc. with better cost performance.

Use DCS automated production control system that ensures process safety, consistency and efficiency

Premium raw materials, allowing the company to deliver competitive, top-grade products to its customers worldwide

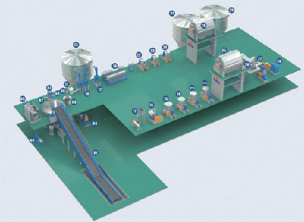

Provide a complete set of papermaking chemical solutions. While providing products, we can also provide technical support and provide turnkey

As an excellent equipment supplier in China with a history of 70 years, Chenzhong Machinery can provide customers with the following services:

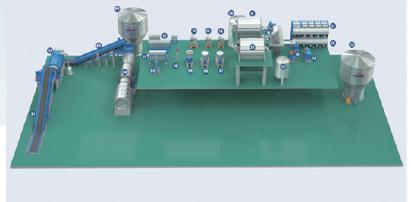

Technical consultation

1. Manufacturing of pulping equipment and sludge treatment equipment
2. Upgrade the pulping production line, and light / heavy impurities treatment system for OCC pulping line.
3. Engineering design, equipment installation, commissioning and personnel training.

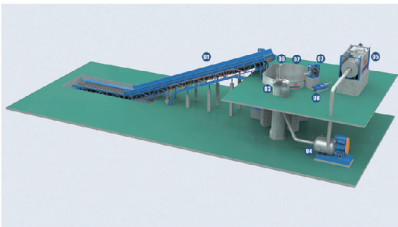

Chenzhong Machinery can undertake 1000 T/D OCC line project, 300T/D Deinking Line project, 300T/D wood pulp production line, 200T/D non-wood pulp production line such as rice straw, wheat straw, bagasse, etc as materials and 70 T/D(Bone-Dry) sludge dehydration equipment. Our goal is to provide perfect services and excellent products to customers.

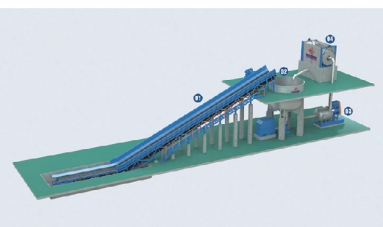

OCC Pulp Line System

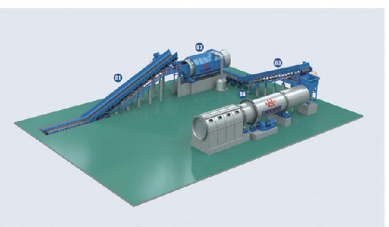

Deinking Line System

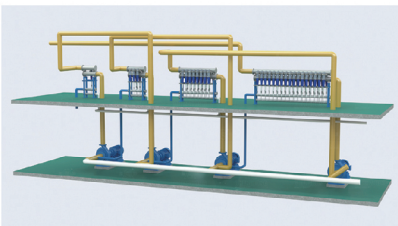

Low Consistency Pulping System

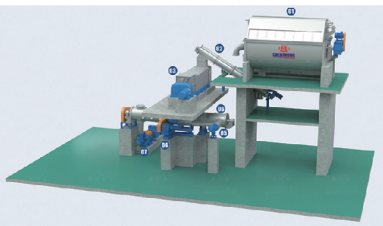

High Consistency Pulping System

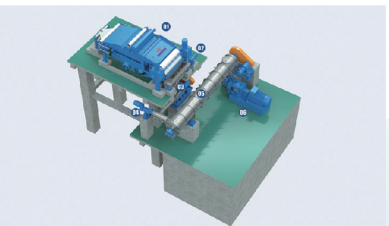

Bale Breaking & Drum Pulping System

Low Consistency Cleaning System

Disc Filter Hot Dispersing System

Twin-wire Press Hot Dispersing System

## The First Class Paper Machine full-line Supplier from China!

**Founded in 1985, HENAN ZHONGYA is one of the biggest paper machine full-line supplier from China. We can provide the complete machine lines, turnkey projects and rebuild services for single PM of annual productivity up to 500,000 tons per year (Trimmed width of 8 meters and working speed of 1500m/min).**

### **Sales Contacts:**

## Fujian Light Industry Machinery & Equipment Co., Ltd.

### Waste Paper Deinking Pulp Line

Waste Paper Deinking Pulp Line(DIP) Turnkey Service

The deinking process increases the whiteness and cleanliness degree of recycled paper, and further improves the paper qualities through mechanical and chemical process. FJLIME provides the complete DIP turkey service

1. Complete set of deinking equipment including pulping, screening, deinking, desanding, washing and concentrating and storage units
2. Automatic and Electrical control system
3. Engineering
4. Project management
5. Supervision service of installation, commissioning and start up
6. Operation training at site

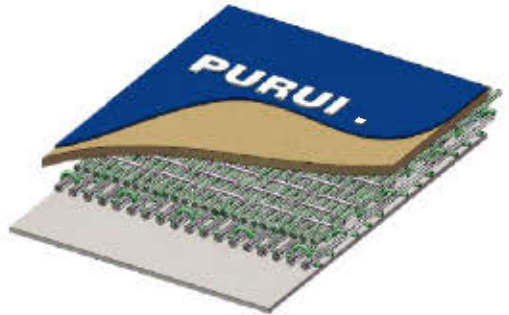

## Guang Dong New Purui Industrial Textile co.,Ltd.

### PURUI Felt

#### Felt For Paper Machine

1. Press Felt for high speed tissue machine(Including Crescent Former Machine And Fourdrinier Machine)
2. Press Felt for package paper machine
3. Press Felt for write and print paper machine

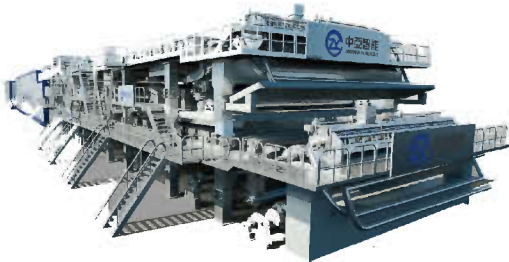

## Henan Zhongya Intelligent Technology Co., Ltd.

### Completed Papermaking Machine and Services

1. Optimal press configuration based on different paper product.
2. Dryer cylinders and VAC cylinders combined to reduce breaks and wrinkles and improve drying rate.
3. Enough potential capacity to increase output
4. Easy Operation & Maintenance

## Dekaisheng Kunshan Meihuasi Machinery Equipment Co.Ltd.

NEW

### Coated Doctor Blades Suitable For Tissue Paper Making Equipment.

1. Carbide has ultra-high toughness and wear resistance, more than 30% life expectancy than similar products.
2. High corrosion resistance is more than 5 times the performance of stainless steel. High bonding strength, the bonding strength with the base material is more than 90MPa.
3. Using special spraying technology to coat the scraper edge with super wear-resistant hard alloy, then proceed with precision grinding.
4. Ultra-precision grinding process, with coating roughness of Ra0.02 (mirror), straightness tolerance <math>< 0.1\text{mm/m}</math>. Compared with other scrapers, the Coated Doctor Blades has the most excellent performance on the market.

Luoyang Taixue Dyes Co., Ltd.

# Taixue®

## Liquid Dyes, Powder dyes and Pigments for papermaking industry

1. 37 years' manufacturing experience and extensive industrial knowledge
2. Fully automatic production equipment and excellent after sales services
3. Quality control system that conforms to the international industrial standards
4. We provide color-matching tests on packaging paper, color paper, fine paper, etc.
5. We provide dye application experiment and detailed dyeing solution on paper machines

Qingdao Jieruixin Machinery And Technology Co., Ltd.

青岛杰瑞信机械科技有限公司  
Qingdao Jieruixin Machinery & Technology Co., Ltd.

## Thermal Paper Coating Machine line

1. PLC central control system;
2. SIEMENS Components High running speed;
3. High running speed with blade knife coater;
4. Heating temperature is Visual control;
5. Double blade knife coating and one back wet coater in case of the paper curved.

Shandong BlueSun Chemicals Co., Ltd.

NEW

## AKD Emulsion Raw Materials

Paper chemicals factory:

1. Capacity 100,000 tons per year with 3 factories based on DCS control.
2. Different chemicals for Tissue, Kraft, Culture and oil proofing paper etc.
3. Can transfer the production technology, equipment and raw materials to set up production lines.
4. AKD wax/emulsion, Rosin sizing agent, Surface sizing agent, Polydadmac, ASA, water treatment chemicals and dyes. etc.

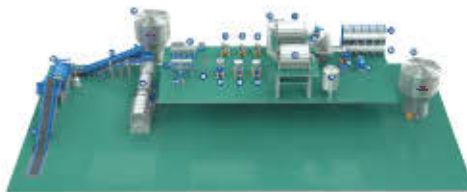

Shandong Chenzhong Machinery Co., Ltd.

NEW

## Excellent Paper and Pulp Equipment Supplier, Perfect Stock Preparation Solution.

1. Complete solution of OCC pulping line and upgrading service.
2. Complete solution of DIP (De-inking) pulping line and upgrade service.
3. Complete solution of Tissue pulping line.
4. Suitable and reasonable solution of rejects treatment sludge treatment.
5. New technology of the white water treatment solution.

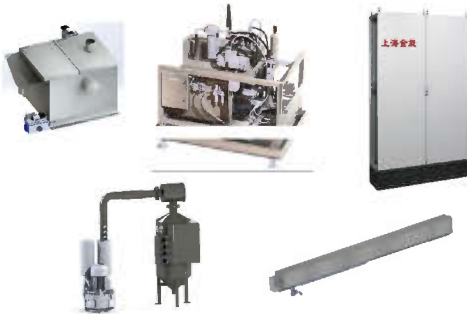

## Shanghai Jinxuan Rotary Joints Manufacturing Co., Ltd.

NEW

### HP On-line Canvas Cleaner

1. On line cleaning
2. Help to increase paper machine speed
3. Use own vacuum force to remove the dirt
4. Water saving up to 90%
5. Suitable for all grade paper machine

## Sichuan Gaoda Science & Technology Co.,Ltd.

NEW

### Distributed control system

Parameters (such as pressure, flow, liquid level, temperature, etc.) distributed in the production site, concentrated in the central control station, and advanced control algorithms are adopted to complete the control operation and realize the purpose of regulating and controlling the field parameters. Gaoda Sci-Tech is the industry pioneer in introducing Siemens PCS7 process control system, with 30 years of development history, providing tens of thousands of systems and products for over thousands production lines at home and abroad

## Welfang Greatwall Import And Export Co.,Ltd.

NEW

King Bonroy Paper

### THERMAL PAPER

1. 100% wood pulp High brightness, up to 5 years image life, smooth surface with lowest fray on printer heads;
2. High tightness, evenly cut, decently packed to ensure the products reach customers in well condition;
3. Advanced facilities and efficient production control to ensure customers the shortest production turnaround time.
4. Mainly used for supermarkets, chain stores, restaurants, shopping mall, etc where POS printers are used

**Folding Box Board, Art Paper, Offset Paper, Copy Paper, Art Board**

1. Cooperation model: Buy globally and sell globally. We have many high-quality paper supplier partners.
2. Supply chain services: Realize the full chain service of order confirmation-purchase confirmation-production completion-goods delivery-customer receipt.
3. Financial services: Make use of our company's strong financial advantages to solve customers' financing demand.
4. Sales service: Our sales staff are located around the world and provide 24-hour consulting services.

Zhejiang Hengtai Filtering Equipment Co.,Ltd.

**浙江恒泰**  
HENGTAI FILTERING

NEW

**Poly Disc Filter**

1. The maximum filtration area of Hengtai's poly disc filter can reach more than 1000m<sup>2</sup>.
2. For pulp thickening, the filter can increase pulp consistency from 1% to 10~15%.
3. not only closed-loop water circulation is realized, but water consumption of each ton paper can be significantly reduced.
4. bagless type segment of hengtai can greatly reduce the maintenance cost of disc filter, increase the capacity, and achieve better filtrate quality.

## Company Profile 企业介绍

厦门琪星新材料有限公司隶属于大型石化集团——厦门亨润集团，成立于2007年，是一家集研发技术、生产制造、营销服务于一体的高端胶粘剂知名品牌企业，总部位于中国厦门。

依托集团强大的资源网络，公司以优质的原料资源、先进的科研技术和设备、强大的科研团队及遍布全球的营销渠道等全方位优势，经过近二十年的商业沉淀，公司已形成应用于不同领域的多系列产品，为客户提供精准需求的技术解决方案，产品和服务获得全球用户广泛信赖。

Xiamen Cheshire New Material Co., Ltd., a wholly-owned subsidiary to the large-scale petrochemical group - Xiamen Hengrun Group, was established in 2007. With its head office locating in Xiamen, China, Cheshire is a well-known enterprise providing high-end hot melt adhesive as well as R&D technology, production and marketing service.

Basing on the powerful resource network of Xiamen Hengrun Group, Cheshire has resources superiorities such as high-quality raw material, advanced scientific research and technology, strong scientific research team, modernized research equipment and global marketing channel. After nearly two decades of business accumulation, Cheshire has formed multi-series of hot melt adhesives. By providing customized solutions and technical support, Cheshire has gained global trust with its product and technical service.

**Baosuo Paper Machinery  
Manufacture Co.,Ltd.**

**Fully Automatic Facial Tissue Production Line**

1. The whole facial tissue production line is fully automatic, which can save the labor cost a lot.
2. The facial tissue production line can equip with different packing machines, in order to make different finished products.
3. Enable user to run the machine to its maximum efficiency, because this facial tissue folder can run fluently at high speed, without worrying about the labor cannot catch up with the machine production speed.
4. The facial tissue production line uses BaoSuo patented double-axis stack separation technology to ensure the preciseness.
5. The mechanical design of the automatic transfer system refers to the supreme technology of high-end facial tissue production line.

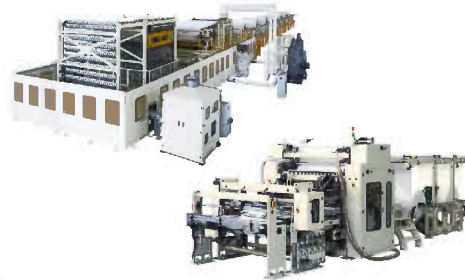

**Dechangyu Paper Machinery**

**CJ-C2900/ CJ-C-A1500**

**Characteristics of CJ-C:**

1. Easy to operate;
2. Operation speed could reach 150 m/min;
3. Precisely counting system and nice folding effect;
4. User-friendly automatic roller maintenance system;
5. Fully automatic producing, raising the health level of products.

**Liuzhou Fexik Intelligent Equipment  
Co.,Ltd.**

**Full Automatic Facial Tissue  
Production Line**

The full automatic facial tissue paper production line is easy to operate. It adopts advanced technology and innovative mechanical structure, which saves costs and produces efficiently. We strive to provide maximize value solutions for customers.

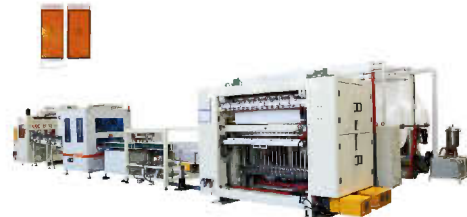

**Ok Science And Technology Co.,Ltd**

**Hung-Up Facial Tissue Production Line  
New popular product with high full  
automatic technology**

1. Sheet count wide range, 50-600 sheets or 150-1800 plys
2. Design speed 150 meters/min; working speed: 100-120 meters/min
3. Embossing Unit-optional, such as steel to wool, steel to rubber, steel to steel
4. Smaller space and lower energy consumption

## Quanzhou Hanbang Automation Equipment Co., Ltd.

NEW

### Fully Automatic Compressed Towel Production Line

1. Hanbang is the pioneer of fully automatic compressed towel machines, which are stable, high-speed, efficient, safe and hygienic.
2. Stable production speed 200-500 pieces/minute, compressible diameter 2.0cm, 2.5cm, 4.5cm, can also be compressed into square 4\*2.8cm, 4\*5.5cm.
3. The double-material rolls of non-woven fabrics can be replaced without stopping the machine, and the non-woven fabric joints are automatically removed.
4. Fault alarm and automatic shutdown.
5. The equipment covers an area of only 15-30 square meters, consumes low power, and has an installed power of only 25kw.

## Quanzhou Xing Yuan Machinery Manufacture Co., Ltd.

NEW

### Full Servo Baby Diaper Production Line

As a manufacturer of disposable sanitary products equipment with a history of 15 years, our baby diaper machine adopts industry-leading technology and brings this baby diaper production line with a speed of 800 pieces per minute. Welcome to visit and consult

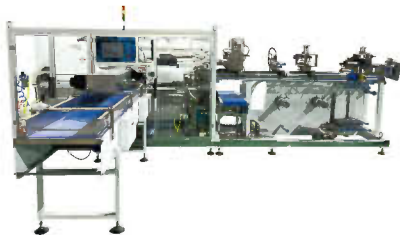

## Seewinning (Swatow) Industrial Co., Ltd.

NEW

### The Hanging Tissue Production Line

1. Hanging Tissue with 1280pcs in one bag, 5 times the original packing.
2. New type of tissue packing, convenient to multiple scene use.
3. 50 bags/min High speed production.
4. Fully automatic production line, One operator requested only.
5. Over 70 lines delivered in 2023.

## Shandong Hicredit Heavy Machinery Co., Ltd.

### High-speed Crescent Former Tissue Machine

1. All key components of tissue machine, such as the Headbox, Steel Yankee Dryer, Hood, Suction Press Roll are manufactured by Hicredit itself, ensuring the paper machinery quality.
2. New generation steam & condensate system and hot air system, reducing the total steam consumption to the minimum;
3. Totally Europe design, high reliability.
4. Trimmed Width: 2660~5600mm
5. Speed: 1200~2000m/min
6. Basis Weight: 10.5~42g/m<sup>2</sup>

**Shanghai Tominaga Packing Machinery Co.,Ltd.**

**NEW**

**Full Auto Sanitary Napkin Packing Line(stacker+packer)**

1. Feeding direction: Vertical/Horizontal
2. Stacker speed: 1200 pcs/min
3. Packing speed:55-60 bags/min
4. Support 3-15 pcs/bag& Easy to set different pcs/bag on HMI
5. Support different configurations o fpackage

**Xiamen Cheshire New Material Co., Ltd.**

**NEW**

1. Adhesives forLabel Sticker
2. Adhesives For Pressure-sensitive Label
3. Adhesives For Hygiene Industry
4. Adhesives for Pest Control Field
5. Adhesives for Other Industries

1. Hot Melt Adhesive solutions for disposable hygiene industries
2. Construction Adhesive, Enhance core integrity and reduce consumption
3. Positioning Adhesive, High peel positioning performance on back sheets
4. Elastic Adhesive, Ultimate creep resistance property
5. Wet Wipe Adhesive, Strong bonding strength in wide temperature range

**Xiamen Gachn Technology Co., Ltd.**

**Personal Hygiene Products Package Integrated Solution**

1. High Speed and Efficiency: The stacker machine can automatically count and arrange products at an impressive speed of 1500 pcs/min, while the packing machine can pack products into bags at a rate of 65-70 bags/min. This ensures a fast and efficient production process for you.
2. Versatility and Flexibility: Our product's various parts, including the stacker machine, packing machine, metal detection, visual inspection, case packer, product conveyor, stretch film wrapping machine, and AGV, can be integrated to form a streamlined production line or used separately, providing customizable options for you.
3. Streamlined Packaging and Storage: Our product offers a complete solution for packaging and storage. It efficiently packs bags into cases/-boxes, conveys packed products to the palletizer for consolidation, wraps consolidated cases with film, and uses AGV for automatic transportation to storage, ensuring a streamlined and organized process for you.

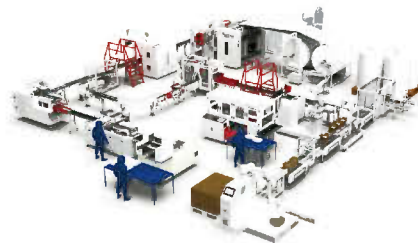

**Zhejiang Onepaper Smart Equipment Co.,Ltd.**

**Facial Tissue Production Line**

The whole machine adopts the Internet of Things interoperability module, real-time data collection, and entire line interconnection. It can realize the fully automatic production of 2-layer paper 10.5g jumbo roll tissue (the fewer layers, the less weight, the bigger difficulty). It has large production capacity, high efficiency, smooth folding and exquisite package shape.

NEWTOP-FB100S servo paper cup machine is an efficient, intelligent and environmentally friendly paper cup forming machine. It adopts digital control mode and uses servo motor to control the paper cup forming process with high precision to achieve fast, accurate and stable paper cup forming effect.

The control part integrates various techniques such as Ethernet real-time control technology, Distributed clock mechanism, electronic cam technology and common DC bus to control efficiently stably and precisely. This machine is good for making 2.5-10oz paper cups, and the production speed can reach up to 170pcs/min.

IMPROVEMENT IS THE CULTURE

**Shandong Hicredit Heavy Machinery Co.,Ltd** is a professional paper-machinery supplier from China. The main products are High-speed Tissue Machine, Hi-speed Rewinder and Double Wire Air Borne Drying Pulp Machine. The company has succeed to sell its products to Western Europe, South Asia, Russia, Middle East and so on. Reliable quality and perfect after-sales service is the principle the company always persists.
